1000 Southmost Rd.
Brownsville, Texas 78521
956-546-0547

Volunteer Opportunities: nursery operations and stewardship at Southmost Preserve

Types of volunteer opportunities:

Nursery operations (opening seedling tubes, mixing dirt, planting, seed collection and processing, packing and delivery), stewardship (invasive species control, mowing and shredding)

There is always work year-round but **September / October is busy** as we are packing plants for delivery to FWS.

Marcos Ruiz is the preserve manager at **Southmost Preserve** and only speaks Spanish. Marcos works mostly from 7:30am-3:00pm most weekdays. Mondays are always catch up and assessing the week so any time from **Tues – Fridays would be preferred**.

Hopefully soon that will be an opportunity at **Las Estrellas Preserve** in the future, but they are still working on that.
